  - 2025 — Knowledge and Practical Considerations

Academic Projects

In my Philosophy Minor (University of Tehran)

Essays on Berkeley's Thesis on Imagination:

- Identity Based on Imagination
- Abstraction upon Imagination

Promising as an Epistemic Practice

Independent Research, Supervised by Prof. Amir Saemi (Institute for Research in Fundamental Sciences – IPM)

Examines whether promising places the promisor in a better epistemic position to know that she will do what she promised, and develops a potential objection to Bob Beddor's account of the knowledge norm of promising (Beddor, Bob. "Moorean Promises," *PhilArchive preprint*, 2024*, Forthcoming in Ethics*).

Can "No Difference" Make a Moral Difference?

Independent Research on Collective Wrongdoing and Responsibility in Climate Change

Examines the challenge posed by "no-difference" arguments, which hold that individual responsibility is undermined when a single agent's action produces no significant marginal harm. Argues against this view by defending a contribution-based account of moral responsibility that holds agents accountable irrespective of perceptible individual harm thresholds.

Academic Activities

Academic Engagement

- Participant, Moral Philosophy Reading Group – Led by Amir Saemi, Institute for Research in Fundamental Sciences (IPM); participating for 2 years.
- Participant, Philosophy of Language Reading Group – Led by Sajed Tayebi, Institute for Research in Fundamental Sciences (IPM); participating for 8 months.

Selected Talks Attended (Institute for Research in Fundamental Sciences – IPM)

- *"Truthmakers for Grounding Truths"* — Mohsen Zamani
